Dear David:

I've had a chance to review the proposed Certificate of Employment and Release Agreement. Before I address my signing of this document, I have a few questions that need to be clarified.

First, I understand that the Agreement refers to Gray State LLC. When I conducted a search on the Minnesota Secretary of State's website, this LLC is listed as inactive. Can you please confirm that the LLC will be brought up to good standing prior to the Agreement being signed? Also, the Agreement does not mention Gray State – The Rise LLC. Again, I conducted a search on the Minnesota Secretary of State's website and this LLC is listed as an active entity. I was not aware that this LLC even existed. If we are addressing any possible claims, I want to address and document the future of Gray State – The Rise.

Before I can sign any sort of release concerning Gray State LLC, I request in exchange that you sign documentation allowing me complete access and control to Gray State – The Rise LLC. You have stated many times before this project is of no interest to you. I would like to continue to work on this project with Robert Hoyt and produce a finished project for our fans. I request that you sign over ownership of the LLC and sign a similar waiver and release of claims that you are now requesting of me.

I cannot sign the Agreement as in for a handful of reasons, but most importantly because I have dedicated 4 years to Gray State. I have been intimately involved in the creating, casting, development, production and marketing of the project to this point. I invested my time and energy – often at the expense of my job and financial security – with the understanding that eventually I would receive compensation. Though I have received nominal compensation, I believe that I am rightfully entitled to 10% of the gross revenue of whatever may be generated from Gray State moving forward. I would request that documentation be executed prior to me releasing any other claims or rights I have.

I hope you will understand and appreciate where I am coming from and we can get this resolved quickly.

Thanks.

Danny Mason
